| <p><b>Content not acceptable:</b> Silent<br/> <b>Notes:</b> Purpose of CE: To further the goal of public benefit, all psychologists are encouraged to fulfill a portion of their continuing professional education requirements in the areas of ethics, professional conduct, and treatment and evaluation of culturally diverse populations. On December 8, 2004 the Board of Psychologist Examiners filed the Rules and Regulations that would allow certain qualified psychologists to prescribe psychotropic drugs in their treatment of patients with mental illnesses, especially those in under served rural areas. The rules and regulations become effective January 7, 2005.</p> |  |  |                                |
